

Khoirul Huda

I am a Senior Full Stack Developer with solid experience in developing end-to-end web applications — from user interface design to backend and database integration. Proficient in technologies such as JavaScript, Vue.js, Node.js, Express, and MongoDB. Adept at working in cross-functional teams and quickly adapting to new tools and methodologies. My focus is on building scalable, efficient, and user-friendly solutions.

10/10
Indonesian

8/10
English

WORK EXPERIENCE

December 2024 – Present

Indocyber Global Teknologi (Placement at BPJS Ketenagakerjaan)
Fullstack Developer

- Conducted unit testing, stress testing, and performance optimization of web applications.
- Refactored monolithic systems into microservices for scalability and efficiency.
- Developed RESTful APIs, optimized queries, and performed database tuning.
- Collaborated within Agile/Scrum teams using Jira for project management.

January 2019 – November 2024

PT. Positif Media Citra
Fullstack Developer

- Developed and maintained end-to-end web applications (frontend & backend).
- Implemented microservices architecture and integrated third-party APIs.
- Improved application performance through refactoring and automated testing.
- Developed and maintained end-to-end web and mobile-based Point of Sale (POS) systems, including payment methods, sales reporting, and inventory management.

TECHNICAL SKILLS

Programming Languages

Javascript, TypeScript, Python & PHP

Frameworks

Node.Js, Express.Js, Laravel, Prisma ORM, Vue.Js, Nuxt js, React js, Next js, Tailwind CSS & Bootstrap

Testing & Performance Tools

Jest, Postman, PHPUnit/Pest, K6, LoadRunner
